PROFILE SUMMARY

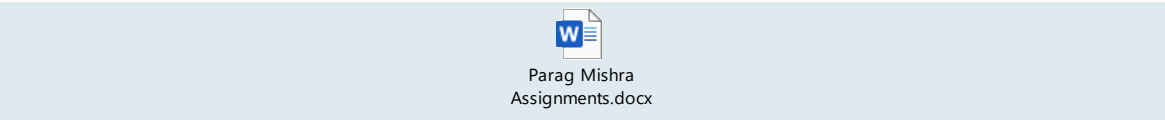

Highly skilled Senior SAP BW Consultant with over 13 years of specialized experience in SAP BO, SAP BW, SAP BW on HANA, SAP BW/4HANA, SAP Datasphere and Native SAP HANA Data Modeling. Demonstrates proficiency in SAP BW ABAP, OOPS ABAP, and HANA Modeling (Calculation Views, Table Functions, Stord Procedures, Union Pruning) alongside advanced reporting tools, including Bex Analyzer, Query Designer. Proficient in BW Reporting Tool, and Analysis for Office. Holds multiple SAP certifications in BW 7.4, BW/4 HANA 1.0 & 2.0, SAC, SAP HANA Modeling, SAP Project Management Activate. Also proficient in Data Engineering with Microsoft Azure, designing and architecting automated environments for optimal data assets and resources, leveraging essential tools such as Azure Storage Account, Azure Data Lake Gen2 Storage Account, Azure Data Factory, App Service Environment, Az-Copy, Azure Data Bricks, Azure portal, GitHub, Azure Data Factory pipelines, Azure Data Factory Data Flows, SQL Server, Microsoft Data Migration Assistant and Python.

Proven expertise in managing end-to-end implementation, rollout, and support projects, optimizing system performance, and leading technical teams. Skilled in client communication,

WORK EXPERIENCES

IT Specialist - Lead Consultant @ Volkswagen Group Technology Solutions INDIA (Apr 2025 - Till date)
Senior Specialist - Package Implementation (Team Lead) @ LTIMindtree (Jan 2022 - Apr 2025)
Lead Consultant @ Birlasoft Ltd. (Apr 2017 - Jan 2022)
Consultant @ Yash Technologies Pvt. Ltd. (Oct 2015 - Apr 2017)
SAP BW/BO Consultant @ Accely Consulting India Pvt. Ltd. (Mar 2015 - June 2015)
SAP Developer @ Ayan Tech Solutions Pvt. Ltd. (Aug 2013 - Feb 2015)
Professional @ Emerson Export Engineering Centre (Aug 2008 - Sep 2009)
Software Engineer @ Bio Analytical Technologies Pvt. Ltd. (Sep 2007 - Mar 2008)

MAJOR DELIVERABLES

CERTIFICATIONS

- SAP Certified in BW 7.4
- SAP Certified in BW/4 HANA 1.0
- SAP Certified in Project Management Activate
- SAP Certified in BW/4 HANA 2.0
- SAP Certified in HANA 2.0 SPS 06
- SAP Certified in SAP Analytics Cloud
- LTI ILead Certified
- Goethe German A1, A2, B1 and B2 Certified
- Microsoft DP-203 certified
- Microsoft DP-900 certified

TECHNO - FUNCTIONAL SKILLS

Data Extraction | Data Modeling | Reporting | Process Management | Project Management | Requirements Gathering and Analysis | Performance Tuning and Optimization | Client Communication | Client Relationship Management | Analytical and Presentation Skills | Strategic Management | Personnel Management | Training and Mentoring | Troubleshooting and Issue Resolution | Unit Testing and User Acceptance Testing (UAT) | | Data Quality and Analysis | Azure Data Engineering | Cloud Data Storage Services | Cloud Storage Offerings | Storage Content Management | Backup & Restore | SQL DB | Azure Data Bricks | Azure Data Factory | Blob Data and Database Migrations | SAP Data Intelligence | SAP HANA Cloud | SAP BTP | SAP Cloud Connector | Azure DevOps (CI/CD Pipelines) | SAP Integration Suite | Data Governance (Azure Purview) | Live Data Connectivity (SAC ↔ BW/HANA) | SAP Lumira | SAP Fiori Analytical Apps | SAP EarlyWatch Alert | Performance Monitoring (ST03N, ST05) | SAP BTP

Tools & Technologies:

Languages: SAP BW related ABAP | OOPS ABAP | Python | ABAP CDS Views

Technology/Framework: Eclipse

ERP: SAP R/3 ECC 6.0 | SAP S/4 HANA

Data Warehouse: SAP BI 7.x | BW 3.x | SAP BW/4 HANA | SAP Datasphere

Database: Oracle | HANA DB |

requirements gathering, and delivering customized solutions across various industries such as banking, manufacturing, energy, retail, petroleum, and pharmaceuticals.

Successfully led multiple SAP BW migrations, implementations, support and upgrades, significantly enhancing system performance and capabilities. Adept at leveraging technical and analytical skills to provide strategic insights and drive business value through innovative SAP solutions.

EDUCATION

Master of Business Administration in Marketing & IT | Symbiosis International University | 2012 | GPA: 2.7/4

Master of Computer Applications | Bangalore University | 2006 | 74.4%

Versioning Tools: Git | Azure Devops

Test Management Tools: Mantis | Bugzilla | HP Mercury QTP

Testing: Manual Testing

Reporting Tools: Bex Analyzer | Bex Report Designer | Bex Query Designer | Business Objects 3.x/4.x (Universe Designer Tool (UDT) | Information Design Tool (IDT) | WebI | DeskI | Crystal Reports | Infoview) | BW Reporting Tool | SAP Analytics Cloud | SAP BO Analysis for Office | Power BI

Modeling Tools: RSA1 | BW Modeling Tool | HANA Modeling Tool

Cloud Tools: Azure Data Factory | Azure Data Bricks | Azure Synapse | Azure Storage | Azure Data Lake Gen2 | SAP BTP | SAP Data Intelligence | SAP Integration Suite

Data Warehouse: SAP HANA Cloud

Key Highlights:

- Designed and optimized ETL data models in SAP BW/4HANA and Datasphere for high-performance reporting
- Involved in analysis and migration of SAP ECC to SAP S/4 HANA by creation of CDS views for Deprecated datasources
- Batch Jobs: Created Replication task and delta job using SQL in SAP BTP, creation and scheduling of Batch jobs / Process chains
- Data Visualization: Experience in story design in SAC, SAP BI tools and also implemented reporting solutions using BEx, BO Tools, WAD, Power BI and SAP Analytics Cloud (SAC) based on business needs
- Provided technical support and enhancements across SAP BW/BI applications including Query Designer and InfoProviders
- Participated in cross-functional SAP projects from planning to go-live, including partial project leadership
- Performance Tuning: Conducted system performance analysis and ensure continuous improvement of data quality, code quality like optimizing of routines code using ABAP and AMDP, creation of aggregates, rollup, cube compression, partitioning as well as SPO objects to improve reporting performance. Optimized SQL Function and procedure in SAP HANA
- Worked on standard and custom CDS views as a part of S/4HANA embedded analytics and reporting using Bex Tool
- Extensive work experience in ABAP areas like Reports, Data upload using BDC, SAP Scripts, Smart Forms, User Exits, BADI and Performance Tuning of ABAP objects
- Have been involved as Technical Lead for multiple engagements from the kick-off to handover project phases like Discover, Prepare, Explore, Realize, Deploy and Run
- Experienced in Requirement Gathering, Gap Analysis, Design, Development, Support/Maintenance, Troubleshooting and Performance Tuning of ABAP/AMDPs/BW objects.
- Data Extraction: Proficient in Data Extraction from SAP ERP systems and non SAP systems from Logistics and Finance Areas. Worked on Generic data extractors in SAP. Worked on Data extraction using SLT, SDA, and SDI
- Data Engineering: Experienced in Data modeling in HANA modeling using Graphical and SQL as well as SAP BW using LSA and LSA++ framework
- Collaborated with key users and offer 1st/2nd level support, including training and issue resolution
- Experience in Team Handling and mentoring
- Worked as Project Lead, Technical Lead, Onsite/Offshore coordinator and developer
